**EXAMINER'S AMENDMENT**

The title of this invention shall be "Objective Automated Color Matching Between Input and Output Devices."

**REASONS FOR ALLOWANCE**

The following is an Examiner's Statement of Reasons for Allowance: No prior art anticipates or suggests, in an input processing apparatus which performs automated color matching between input (source) and output devices, a setting means for setting a standard condition included in the profile as an image processing condition of the source device, wherein the adjusted image processing condition corresponding to the instruction of the user is made invalid, and the input image data subjected to conversion by said conversion means is generated by the source device by using the standard condition set by said setting means, as disclosed in all of the independent claims.

Any comments considered necessary by the applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
